Nominee Lalo Castro
unit CNS

category One time outstanding contribution or effort;†

Justification I wish to recognize Lalo Castro's extraordinary contributions of the past several months as interim system manager for CRUZTIME. After Gary Carlton's retirement, Lalo readily took on the added responsibility for maintaining accounts, trouble-shooting and resolving problems, well-above and beyond his assigned responsibilities, until this position could be filled. In this role, Lalo performed this work at his usual high level of integrity, expertise and good nature. He also took on aspects of system management beyond the routines expected of him. As a consequence, I think he not only carried the Library through during a key vacancy but also helped advance services. Lalo saw the system through a couple of software upgrades and helped resolve difficult and frustrating problems. He has now taken on training and orienting the new operator in the responsibilities he only learned and assumed a few months ago. I wish to recognize these contributions by nominating Lalo Castro for a local award.
